SHEILA GATES

SECRETARY  
BONNIE BURT

TREASURER  
CAROL EISELE

REPRESENTATIVE  
DENNIS STRUB

## BJC ROUNDUP

MAY 2, 1961  
BOISE, IDAHO

### Thought for the Week:

*If you make people think they're thinking, they'll love you; but if you really make them think, they'll hate you. — Don Marquis.*

### Edleson Receives Membership in NSA

Dr. C. T. Edleson, chairman of division of business and economics at BJC was honored last week by the Boise Chapter of the National Secretaries Association, when they conferred on him an honorary membership in the Boise Chapter.

Mrs. Carol Clapp, president of the Boise chapter, made the presentation. She quoted from a letter received from the secretary of the international board of directors, which stated:

"Honorary membership in the NSA is indeed a coveted honor—a status which is attained through outstanding service to NSA. Such recognition is a mark of distinction awarded for meritorious service to our organization. Dr. Edleson has fully met these qualifications. The support of individuals like Dr. Edleson is invaluable to chapters and to the association for his many contributions to the National Secretaries Association (International)."

May 12, 1961, is the last date to withdraw from any class. No withdrawal or change notices will be accepted after that date.

### Bobos Take Life Easy Before a Grueling Pan-Handling Day, Friday

### RELAXING IN WONDERLAND...

Pausing to enjoy the "Wonderland" scenery are, left to right, Roy Bowman, Cathy Sargent, Kathy Knight and Kay Johnson. The BJC gymnasium was a-glitter with gorgeous gowns and white dinner jackets, at the annual spring formal held April 29 from 9:00 to 12:00 p.m.

Notice to all BJC students: The parking lot of the medical center on College boulevard is private property. All student cars parked on this parking lot will receive parking tickets issued by the Boise city police.

The AWS council would like to express their thanks to all those girls who helped with the spring tea and made it such a success.

BJC's spring formal, one of the biggest social events of the year, took place this past week end. An estimated 250 people attended the dance.

The beautifully decorated gym turned into a spring garden with the mammoth flowers and gigantic mushrooms. An over-sized green worm perching on top of the mushroom, his blue eyes blinking off and on, completed the garden.

A ballet to the music "Wonderland by Night", by dancers from the Dore Moon School of Dance, during the intermission, carried out the theme of the dance. Following the ballet, the Chorelectrics entertained.

A table with lovely corsages in a variety of colors was placed near the door and the ladies selected the color of their choice.

Guests were met by a receiving line which included President and Mrs. Chaffee, Mr. and Mrs. Lee, Mr. and Mrs. Cal Colberg and Dr. and Mrs. Spulnik.

Co-chairmen for the dance were Julie Wildig and Murray Stromberg; Carolyn Teuber had charge of decorations. Earl Boen was master of ceremonies at intermission.

### Last Foreign Film Friday

BJC presents "Kind Hearts and Coronets," the last in the series of foreign films, this Friday at 8:00 p.m. in room 106 of the science building.

This is an English film produced and directed by the famous Alec Guinness.

The film is typical of English thought and behavior, presenting English culture and climate at its best.

It is a comedy portraying a nobleman's attempt to gain power of the throne by perpetrating a string of eight homicides.

Students and faculty are invited to attend free of charge.

Bob Schink of the Wesleyan club will be in charge of the devotionals Wednesday, May 3. Services are interdenominational, and all students are urged to attend.

### Broncettes To Have Car Wash Saturday

The Broncettes are sponsoring a car wash Saturday from 9:00 a.m. to 6:00 p.m. this Saturday at Max Berry's Chevron station on the corner of Vista and Kootenai. You can get your car washed for 99 cents, so bring \$1 in for a deluxe wash job and help support the drill team.

## NOW WE KNOW . . .

ALL OF US are aware of the threat of communism—but few of us realize how near the danger is. In an article entitled "Do You Know" which appeared in the Student Statesman this year, 16 startling facts concerning communism were revealed. The Student Statesman granted the Roundup permission to reprint the story. It is important that each and every one of us realize what we are up against, enabling us to be prepared to cope with the problems.

**DO YOU KNOW . . .** Seventy-two percent of all the books in the world are published in Russia?

**DO YOU KNOW . . .** for the first time in history the Bible has taken second place in literature sales? The works of Lenin are now first in sales with the writings of Stalin in third place.

**DO YOU KNOW . . .** Three and one-half months before his visit to the U.S. Nikita Krushchev said, "We cannot expect Americans to jump from Capitalism to Communism, but we can assist their elected leaders in giving America small doses of Socialism until they suddenly awake to find they have Communism."

**DO YOU KNOW . . .** Carl Marx predicted the entire world would be under Communist domination in 1973, and so far his advocates are right on schedule?

**DO YOU KNOW . . .** Nikita Krushchev has said "Your grandchildren will live under Communism."

**DO YOU KNOW . . .** Communists plan to murder 60 to 90 million Americans when they overthrow our government, for the "crime" of being Christians, clergymen, businessmen, property owners and political leaders?

**DO YOU KNOW . . .** Not a single country has ever voluntarily fallen under Communism, nor has there ever been a true Communist revolution of the masses?

**DO YOU KNOW . . .** That in the Soviet Union itself less than four percent of the population is permitted to join the party? Communism is not a mass movement; it has always been a tightly knit, disciplined, and numerically small conspiracy of highly talented, utterly dedicated and totally vicious criminals.

**DO YOU KNOW . . .** That the Red conspiracy captures nations from boring from within? It conquers by boosting its members into positions of influence where they can subtly deceive or secretly betray. It, therefore, neither needs nor wants numbers. It does not enlist masses; it manipulates them.

**DO YOU KNOW . . .** That student rioting such as the Communist-directed demonstrations against the House Committee on Un-American activities in May of 1960, has immediately preceded their Communist take-over in every country that has fallen under the Red Terror?

**DO YOU KNOW . . .** That Communism has successfully infiltrated their propaganda into our schools, our churches, our leading industries and many of our important government positions?

**DO YOU KNOW . . .** That a military study committee reported that the majority of Americans do not know American history or the meaning of American patriotism, and that they have only a blurred concept of God?

**DO YOU KNOW . . .** That after the Korean conflict, 21 of our army and navy boys decided to stay behind with the Communists, and of those that came home, 75 were trained in acts of espionage for the Communist cause against their own people. (

**DO YOU KNOW . . .** That these facts prove that our American homes, schools and churches have failed to teach our youth the ideals and principles of liberty and human dignity upon which this nation was founded?

**DO YOU KNOW . . .** That America is in World War III right now? It is a warfare of ideologies, ideas, spirits and economics in which the American way of life appears to be losing to the Red-tinted front in our educational, political, and social systems?

**DO YOU KNOW . . .** That unless Americans of all religious faiths and political beliefs unite NOW to support the new presidential administration and fight shoulder-to-shoulder with his fellow man to preserve the freedom of American institutions, Communism will soon be upon us and we will have no choice but to surrender to an enemy we gravely underestimated? — J.H.

## As I See It . . .

By Richard Hughes

Intervention in the western hemisphere by Communist aggressors has definitely been established in the Cuban government not more than 100 miles from Key West, Florida. An attempt has been made to extinguish this Red infiltration of the island, but it was viciously put down by Fidel Castro's well fitted troops, Soviet Stalin tanks, Russian MIG's and artillery, just to mention a few.

During the major struggle, which lasted only a few days, Jose Miro Cardona, Jr., son of the president of the Revolutionary Council, was captured with others while attempting to establish a beachhead on Cuban soil. Many reports coming from Cuba indicated a mass mop-up of so-called insurgents, who had recently been in contact with the United States.

Jails are over-flowing with hundreds of Cubans and some Americans. Will this mean more firing squad slaughter or another scare for the inhabitants inside Cuba?

Our president has commented on the highly critical situation by stating: "We would not hesitate to meet our primary obligation which is the security of our own nation against Communist penetration." This means we are obligated in the western hemisphere. Our work has begun sometime ago in supporting the anti-Castro forces throughout Latin America.

President Kennedy made one of the best analyses concerning the criticism we have so abusively received for taking part in the movement to smother Castro's dictatorship. He was speaking of the Soviet Bloc when he said, "If America has to go it alone, we do not intend to be lectured on 'intervention' by those whose character was stamped for all time on the bloody streets of Budapest." This statement marked our stand forever against Russian aggression.

Cuban workers have been given (Continued on page 4)

Dr. William Bronson

## Teacher of the Week

Dr. William Bronson, a modest, mild-mannered and very well liked psychology professor and guidance counselor at BJC, is our "Teacher of the Week."

Dr. Bronson's education has been acquired in many places of higher education. He received his B.A. and M.A. degrees from the University of Idaho and his doctorate from the University of Colorado.

Dr. Bronson came to BJC from Northeastern university in Boston in 1954. He had formerly been a guidance instructor in the 1940's before going back east.

The doctor and his wife came west again when they had a chance because, according to him, "We wanted to get away from

the crowded cities, and we were quite pleased to come back to Boise."

He lists gardening, working with wood, and fine mechanics as his hobbies when he has time, that is.

"I haven't been able to pursue my hobbies for about 10 years," he said.

Dr. Bronson is kept busy with his teaching schedule and guidance work with students, and he has his own private practice in which he works with retarded children and cerebral palsy victims. He lists gifted children as one of his special interests.

He also teaches counseling in the Guidance Institute at the University of Idaho in the summer as a visiting professor.

Dr. Bronson said he hopes to take a vacation from his practice (not teaching) next year to work on a special project.

## Just Browsing . . .

through the library, preoccupied with thoughts of star-gazing. If star-gazing happens to interest you, too, you might consider taking along a good book on the subject next time you go out to look at the heavens.

While you're looking at the big ol' full moon with one eye, use the other eye to look through *The Other Side of the Moon*. That way you can get the full picture. This book was translated from the Russian by J. B. Sykes, and the forward is by A. N. Nesmeyanov. It includes the orbit, photographic method, and transmission of the Russian satellite which circled the moon. Three untouched photos taken by the satellite along with drawings of "automatic interplanetary station" help make this an interesting volume on the little-known side of the moon.

If you feel as if you have been sent way up to heaven, contrast your experience with *Ninety Seconds to Space* by Jules Bergman. From blueprint to actuality, you will follow the development of missile-aircraft. This volume is made very worthwhile by its many illustrations and the "good writing combined with an intelligent and technical understanding of the subject."

One last book that will hold the attention of someone really interested in star-gazing is *A Guide to the Stars* by Patrick Moore. The beginner in this field will find the text excellent and will learn the few physical facts known about the stars. He will enjoy reading chapters on constellations, variables, binaries, clusters of stars, radio astronomy, outer galaxies and steady-state vs. evolutionary theories of the universe.

Those of you who are interested in the welfare of the library will be pleased to note that the need for a new library has been presented to the BJC board of trustees for consideration. A bond election for this purpose may be called by next fall.

## SCIENCE CORNER

Mr. Belknap has a special collection on display on the first floor of the science building which features a number of snakes and lizards.

Dr. Bonnell has received notification of his election to membership in Phi Sigma, a geology research honor society of the American Institute of Geological Sciences. He has been appointed to a book review with "Northwestern Science Journal of the Northwestern Association."

Mr. Stark addressed the Phi Sigma women's professional organization on astronomy.

Mr. Dalton attended class at St. Theresa's academy.

The geology classes, under the leadership of Mr. Pearson, are studying the Bruneau area.

## CLUB NEWS

The Golden Z freshmen will receive scholarships from the university at the fashion show. Scholarships are named for late Maymie Pierce, who started the club here on campus. Girls applying for the scholarships are asked to submit their resumes to Mrs. Dorothy Lee, advisor.

Valkyrie and Golden Z members plan to host a party for participants in the raft race held May 7. The race is an annual event, sponsored by the clubs on campus.

May 13 is the date for mothers' luncheon planned by Valkyries. Mothers will be invited to the Royal in a pre-May tribute.

Golden Z members are also working for a tribute to mothers to take place in May.

Dr. Donald Obee

## Dr. Obee Elected Academy President

Dr. Donald J. Obee, chairman of the division of life sciences at C, was elected president of the Idaho Academy of Science at its annual business meeting Saturday, April 22, at the College of Idaho. Dr. Obee served on the first organizational committee which met BJC five years ago and drew a constitution and plans for formation of an Idaho Academy of Science. Each of the institutions of higher learning in the state sent representatives to that meeting.

The academy has grown until it now includes science teaching personnel from both high schools and colleges, scientists in state and federal agencies and in private industry within the state.

Eight members of the BJC physical and life science divisions belong to the academy.

## FASHION REPORTER

By Shelley Simpson

Rushing with summer comes the faithful "Muumuu" gowns. The loose fitting, sleeveless, open-kline style of the new selections now available at C. C. Anderson's are a favorite of all the fashion conscious college coeds.

Simplicity plus color is the main attraction in this year's muumuu line, around the house or for the girl who wants to combine daintiness with comfort for hot weather months.

Winning summer styles here at C. C. Anderson's are the cotton terry cloth fabrics, which fit your taste. Sharp, bright colors dominate the summer scene. Hot geranium pink, peacock blue, clear yellow, horizon blue and vibrant green prints mix these colors beautifully. Summer's white with color makes a pleasing combination, too.

Whatever your preference in colors or colors, you will be well pleased with C. C. Anderson's terrific choice. Don't neglect this opportunity of a lifetime at prices men for the coed pocketbook.

**C. C. ANDERSON'S**

## Around the World

By

Lyn Barney and Larry Van Horn

### PREDICTION OF THE WEEK

It is our prediction this week that Fidel Castro's government will not be taken over by the rebel forces. How can we go wrong here?

President Charles de Gaulle broke the rebellion staged by the four right-wing generals and their supporters. The end came with dramatic suddenness as some 50,000 people milled on the giant forum square of Algiers to watch the dying moments of what President deGaulle had termed a criminal insurrection. It will now be interesting to see how deGaulle follows up his advantage and if he gets his self-determination policy for the Algerians put through.

### CEASE FIRE

A cease-fire was accepted last Tuesday by the U.S.-backed government in Laos and Laos rebels, but it appeared that fighting would continue for several days.

The Communists have been pushing "hard" and gaining much territory this last week, presumably to increase their advantage at the 14-nation conference on a permanent settlement in Laos, to open in Geneva, May 12.

The United States has firmly stated it will not attend the conference unless there is an actual cease-fire in effect in Laos by that time.

Other officers elected at the Saturday meeting include vice president, Dr. W. H. Steffens, University of Idaho; secretary, Dr. Lyle Stanford, College of Idaho, and treasurer, Dr. W. M. Zelesny, Phillips Petroleum company at Idaho Falls.

## Driscoll Hall News

Splash! And another brave Driscoll hall man falls into the "moat." Now that Driscoll is once again protected by a formidable water (and who knows what else) filled moat, it seems that many men cannot resist the temptation to take a cool, refreshing dip.

The men and women of the halls have been putting their heads together (this is unusual?) as plans buzz for the annual dorm spring formal. It is to be open to the entire campus this year, so leave a place open on your calendar for May 13.

Candidates have been nominated for Driscoll hall's government and are as follows: for president, Larry Roberts, Glenn Walker, and Monte Van Sise, with runner-up to take the post of vice president; for secretary, Nick Yorges and Lyle Sall; for treasurer, Jerry Hammons, David Wong and Douglas Pember.

Plans are now in the making for an inter-dorm picnic in Ann Morrison park Wednesday, May 3, and the cooks say chicken will be served.

### ELEPHANT MAY DIE

For noted interest to the readers who are fond of animals, the fate of Henrietta, an Indian elephant which killed a man last week, remained undecided Tuesday. She may be executed.

### KENNEDY GAINS SUPPORT

President Kennedy has gained the support of former presidents, Truman and Eisenhower, and also the support of Governor Rockefeller and former Vice President, Nixon in his effort to present a united front against Communist threats in Cuba and elsewhere.

### WILL FIGHT TO END

Dr. Miro Cordona, the anti-Castro leader, said that the fight will go on "with renewed vigor to the end." However, a Montreal business man, Harry Dolansky, who arrived aboard a plane from Cuba reported, "Before the invasion 50 percent of the people were for Castro, but after the invasion, the country was unified behind him."

This statement sums up what is surprising to most Americans. Almost everyone expected full support of the Cuban people for the revolt once it started. The fact that it was coolly received startled everyone a bit. It seemed that the Cubans prefer the Nationalism that Castro gives them to freedom.

## BJC TO BE INVADED BY HOBOS, MAY 5

"Shades of Freddy, the Free-loader!" This thought will undoubtedly cross the minds of many people Friday as they are exposed to a pack of bums from Tau Alpha Pi, BJC vocational club.

Members of the club will don the appearance of hobos as they participate in their annual hobo march. The purpose of this march is to raise funds for vocational scholarships at BJC.

The members of this group will canvas the campus with open hearts and of course, open hands, asking for, what else but money, for this worthwhile cause.

The club members will assemble at 8:00 a.m. Friday and will comb the campus for loot until 10 a.m. so save all your ruples, pesos, dollars, pieces of eight or any other form of spare currency you have lying around. (Let's hope someone has some currency this time of year.)

After the campus is bled for a handout, this select segment of society will assemble again at 10:30 a.m. to descend on the city of Boise to try and reap another harvest of cash.

"After bringing in the pay load," the Hobos will congregate in one of the city parks for a stew feast; the hobos will be judged for the best costume and prizes awarded.

So, when a walking pile of rags approaches you and asks for a handout, open up your heart along with your pocketbook and give generously.

## A Glimpse Into The Past

On a typical winter evening in 1905 Idaho's first governor, Frank Steunenberg, was walking home from his usual stroll in downtown Caldwell, 30 miles west of Boise. His friends were plentiful as always, and he would casually stop and make conversation with them. As the governor made his way to the front gate leading into his yard, a light snow fell upon the thin blanket of white already on the ground. Suddenly, as Steunenberg opened the gate, a terrific explosion took place which rocked the countryside. A bomb made by "Dynamite Harry" Orchard, had been planted near the gate so that when opened, a string triggered the explosives—to snuff out the life of Steunenberg.

The result exploded into a nationwide attempt to bring the guilty to justice—the persons who hired Orchard, and Orchard himself.

That trouble flared from cor-

Frank Steunenberg

rupt unions throughout the northwest. Labor officials hired hardened, professional criminals to bomb their foes' establishments and in some cases, kill. Steunenberg was one of the individuals who fought wholeheartedly to combat these tense situations against the ruthless groups.

Harry Orchard turned state's evidence after being taken into custody. He implicated Charles Moyer, head of the miners' union; "Big Bill" Haywood union secretary, and Charles Pettibone, union strong-arm and terrorist. These three were arrested in Denver and extradited to Idaho. They remained in Boise jail a full 18 months until the trial opened on May 9, 1907.

Harry Orchard confessed to the murder and roughly 35 other killings he had committed earlier.

The state's prosecuting attorney was Owen Van Duyn, assisted by James Hawley, and the man who was to become a national by-word, William E. Borah. Attorneys for Haywood were John Nugent and Edgar Wilson of Boise, Fred Miller of Spokane, and one of America's greatest criminal lawyers, Clarence Darrow. A total of \$250,000 poured into Boise for the defense of the union leaders. The president of the United States, Theodore Roosevelt, even criticized the unions' activities in the western area.

The trial ended with a verdict of not guilty to the union heads. Harry Orchard was given a life sentence in the Idaho State Penitentiary; he remained there until his death a few years ago.

This reporter had the privilege of talking to the late governor's sister and niece, and from the information they gave me, I can say our first governor of Idaho well deserves his place in front of our state capitol building.—R.H.

## DOES THAT TASTE GOOD?

This is a familiar starting scene for a BJC baseball game—the pitcher prepares for the wind-up, he chews on his fingers, he chews on the ball, and then he lets it go—and it's another out for the other team (we hope)!

## Residence Halls Plan For Dance

Each year Morrison and Driscoll halls co-sponsor a formal dance. Traditionally, this dance has been restricted to dorm students and their dates. This year, the dorms are establishing a new tradition—they are inviting all BJC students to attend. The formal will be held May 13 from 9:00 p.m. to 12:00 p.m. in the Student Union ballroom.

Information concerning tickets and price will be available at a future date.

## AS I SEE IT

(Continued from page 2)

a well indoctrinated course in "Yankee imperialism" and are believing it! Multitudes have fled from the island because of the Communish threat. Now, they have a long bitter fight ahead of them to overtake Castro's followers.

I would look for larger appropriations to be allocated to the Revolutionary forces, who are combating this menace so close to our shores.

## Valley Schools Smash Eight Records In Track Meet At College of Idaho

Eight track and field records fell by the wayside Friday as the three valley colleges battled for points at Hayman field in Caldwell.

The final point standings were as follows: College of Idaho 62, Boise Junior college 55, Northwest Nazarene college 50.

Bud Kinzler took the 220-yard dash with a time of 21.5. The 440 was taken by Kinzler in a record-shattering 50 seconds flat.

One record that was literally shattered was that in the javelin throw. John Pattinson of BJC sailed the spear 194 feet, 1/4 inch. The old record, set by Joe Kahawala of College of Idaho, was 156 ft., 8 in. Pattinson also won the shotput with a toss of 43 ft., 11 1/2 in.

Glen Walker of BJC broke the old 100 yd. time with a dash of 10 seconds flat. BJC also posted record time to win the 880 relay.

The mile relay was taken by the College of Idaho, clipping half

a second off the 1960 record by BJC.

John Lenn of NNC clocked seconds off the old mile mark, setting a new record of 4:42. The high jump mark was bettered by half an inch to a record of 6 feet 3 inches.

## Other results:

The 880-yard run—Young, I; Fitch, BJC; Waggoner, NNC. Low hurdles—Collett, C of I; Young, BJC; Duffy, C of I.

High hurdles—Duffy, C of I; Bickle, BJC; Flynn, BJC. Discus—Smith, C of I; Lenn, BJC; Daniles, NNC.

The last remaining meet of the season will be the conference at Snow college, Ephraim, Idaho.

## Germani To Come To

Fernando Germani, concert pianist from the Vatican, will present a program Tuesday evening, May 9, 8:15 p.m., at the assembly Wednesday night, May 10, for the students. Germani is sponsored by the American Guild of Organists, Boise chapter. He comes to us from San Francisco, where he presented a series of concert compositions by Johann Sebastian Bach. His Boise concert will include a variety of compositions.

WISE MAN—One who knows his lot.

8 BALL—A place behind where there is no housing shortage.

GHIT—What it takes a lot to make the grade.

EXCUSE—The skin of the stuffed with a lie.

UNCLE SAM—The Ranger.

ALCATRAZ—The pen with lifetime guarantee.

## Student of the Week

Dave Sewright

In the spring a young man's fancy turns to thoughts of—well, you know. But spring also brings thoughts of other sorts to some young fellows. Such is the case with Dave Sewright, BJC sophomore. When the grass turns green, baseball gains much of Dave's interest.

Dave can be seen on the diamond showing his "stuff" on the mound. He starts pitching and the opposing batters go down swinging.

Dave is in his second year of mound practice for the Broncos. Last year he won two games and lost one for the Boise squad. So far this year, he has won five and lost none.

Although he is not a native of Idaho, Dave is not far from it. He was born in Nyssa, Oregon.

Dave stated that after leaving BJC he hopes to enter the University of Oregon and continue his college pitching career.

When asked how he thought the Broncos would do this year, the Boise righthander said, "I think the team was a real good ball club and I think they have a good chance of going to the championship playoff."

## SPLISH, SPLASH, I WAS TAKING A BATH . . .

Two stylishly-dressed IK pages beg IK's to sign their paddles, as a part of the IK "Hell Week" which was held last week. "Hell Night" Friday night, April 28, climaxed the week for the pages.

## Bronco Win Streak Ends At 15 Games

The 15 game winning streak established by the Bronco baseball team came to an end Friday at Ogden. The 15th victim of the Broncos was the NNC baseball team. The game Friday was marked by several errors on the part of both teams. None of the four runs scored were earned.

Weber began the scoring in the third inning with a triple followed closely by a BJC error to bring the man in from third base. BJC struck back in the fifth when Henry Mendazona blasted out a triple and was brought in by a Weber error.

A wild pitch followed by an overthrown ball at first base helped Weber to score again in the fifth. The last run of the game was scored in the sixth on

## What's the Use!

A college girl's a work of art,   
 With all her thought and smile;   
 She can make a fellow wonder   
 If his line is out of style.

She tells him how she loves him,   
 But the very next thing he sees,   
 She's found a new lover   
 And given him the breeze.

She will run a half a mile

a dropped fly, sacrifice and a single. The final score with the Broncos on the short end read 3-1.

The Broncos will meet Weber again Saturday for a doubleheader, ending the three game series at Ogden.

## Bronco schedule:

- May 2—Magle Valley at Burley (Doubleheader)
- May 5—NNC at Nampa
- May 6—NNC at Boise
- May 9—EOC at La Grande (Doubleheader)
